

Asbestos Consultants Europe Ltd Quality Policy

Asbestos Consultants Europe Ltd (the Company) has developed an Integrated Management System that manages quality based on the requirements of ISO9001:2015. The Company places high emphasis on continually improving its processes and products to meet the requirements of customers and exceed their expectations where possible. The company adopts the principles of 'Process Management' and continually builds on a culture of continuous improvement within the organisation with the aim of:

- Identifying and eliminating all forms of inefficiencies that do not bring value to the customer
- Creating competitive advantage for the whole business operation
- Continually adding value to processes and all aspects of the business
- Providing high quality services to fully satisfy customer requirements including:
 - Testing services that are compliant with ISO/IEC 17025 General requirements for the competence of testing and calibration laboratories
 - Inspection services are compliant with ISO/IEC 17020 General criteria for operation of various types of bodies performing inspection
 - The management undertaking to provide services complying with UKAS requirements for all its services where such accreditation is held
 - All testing and inspections are in accordance with stated methods and customers' requirements
- To deliver correct, fault free reports and services to our customers on time and within budget

As part of an ongoing process to achieve these aspirations we have set objectives for product quality including:

- We are committed to delivering our services to customers on time, to specification and to the price quoted
- We are committed to making a profitable return on our activities in order to fuel ongoing research, development and growth
- We will conduct our business in an ethical and professional manner
- Should we make a mistake, we will resolve the issue as soon as reasonably practicable
- We will be adaptable to reasonable requests for changes from the customer
- Strategic objectives (Key Performance Indicators) are established and reviewed at the regular management review meetings

The Company uses training of and communication with employees to ensure all policies are understood and implemented. All technical personnel are responsible for familiarising themselves with the Quality Procedures Document and that they are complied with thus ensuring quality system policies, procedures, methods, documentation and arrangements detailed therein for our accredited services. It is the responsibility of the Compliance department to monitor its continued effectiveness under the authority of the Managing Director.

Quality system requirements will be maintained by ensuring completion of the Compliance programme, monitoring the achievement of set objectives and targets.

Senior management commit to comply with requirements and continually improve the effectiveness of our Quality Management System and culture. This policy will be reviewed on an annual basis.

Andy Routledge Managing Director
